

CLEANS • PRESERVES • EXTENDS

THE FUEL PURIFIER 400

PRODUCT NUMBER:

TFP 400

PRODUCT DESCRIPTION:

The patented fuel purifier is a one-step unit that removes up to 99.8% of free water and up to 95% of other heavy contaminants that are found in diesel fuel. Even today's "clean" diesel fuel will easily become contaminated during transportation and storage. Unlike many other products on the market, the fuel purifier performs this function without the use of a replaceable, changeable, or cleanable filter element or cartridge. By removing contamination immediately before the fuel enters the engine's filter system, you can keep your fuel clean, preserve fuel quality, and extend the life of your equipment.

The TFP 400 is designed for diesel powered trucks, generators, and other engines including marine equipment and applications.

PRODUCT FEATURES:

| | |
|-------------------------------|---|
| Product | The Fuel Purifier |
| Model | TFP 400 |
| Nominal Flow | 2 GPM (7.6 L/min) |
| In & Out Couplings | 1/2" NPT |
| Top Port | 1/2" NPT |
| Sensor Port | 1/2" – 20 Straight Thread |
| Heater Port | 1/2" NPT |
| Drain Port | 1/2" NPT |
| Drain Valve | 1/2" M-F brass valve |
| Height | 12" (304.8 mm) |
| Width | 4 1/2" (114.3 mm) |
| Gross Weight | 9 lbs. (incl. mfg. hardware) |
| Sump Capacity | 24 oz. |
| Finish | Polyester Black Powder Coat – 35 to 40 gloss |
| Options | Water Sensor Kit Heater Element |
